Objectives

Objectives

To Introduce the new virtual desktop platform and explain the process to the user when login to Temasek Polytechnic new virtual desktop environment

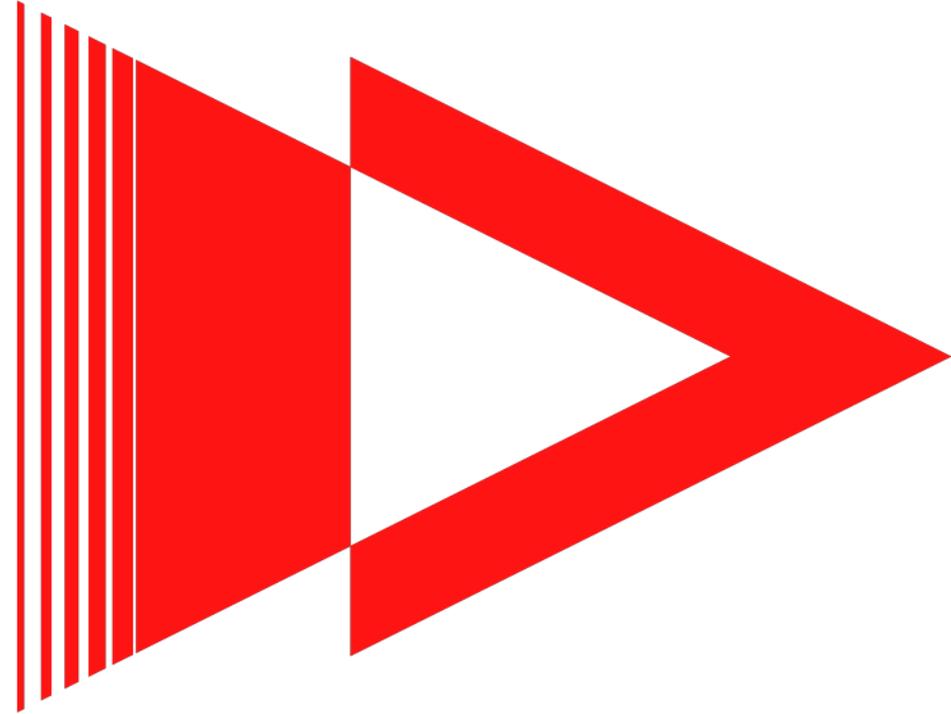

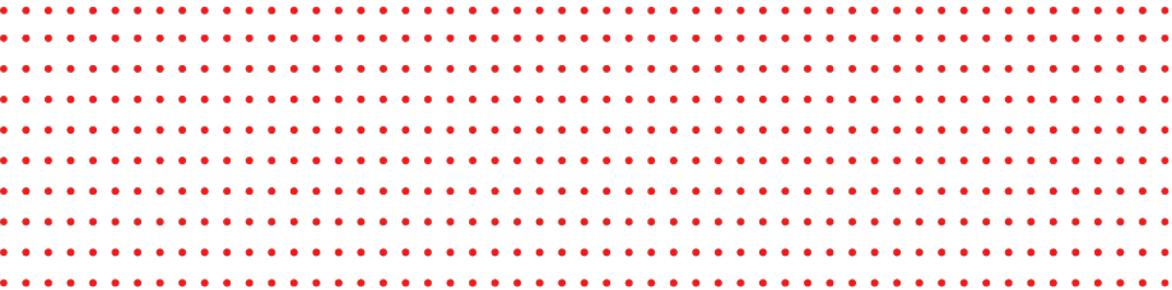

Logicalis WVD Support Team

In the event you encounter any WVD related issue during the WVD session, please reach out to the WVD Support team at the below:

| Name | Email | Contact Number |
|---|------------------------------|-----------------------|
| Calvin Wong (Primary Engineer) | wvd-support@ap.logicalis.com | 86501688 |
| Raymond Kang (Secondary Engineer) | | 85785675 |
| Lim Allan (Service Delivery Manager) | | 96947416 |

What is WVD?

What is WVD?

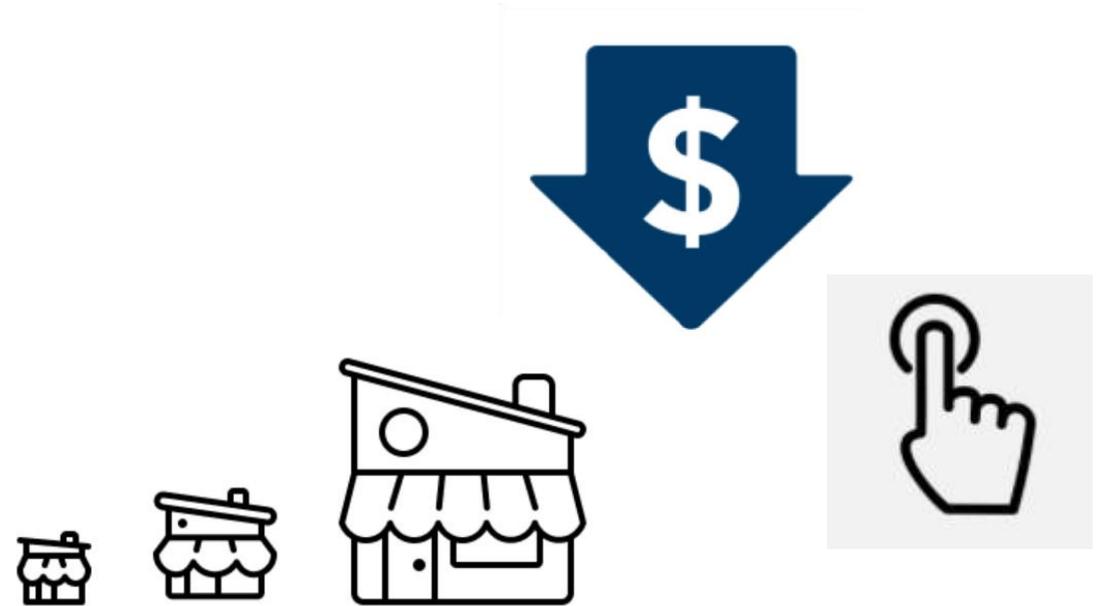

Windows Virtual Desktop or “WVD” is a desktop and app virtualization service that resides in the cloud and is then accessed by users using a device of their choice. Think of it as Desktop-as-a-Service powered by Microsoft Azure

What Make WVD Different?

In the past, virtual desktop solutions have been complex and expensive. They were difficult to set up and manage. A large server infrastructure was necessary to

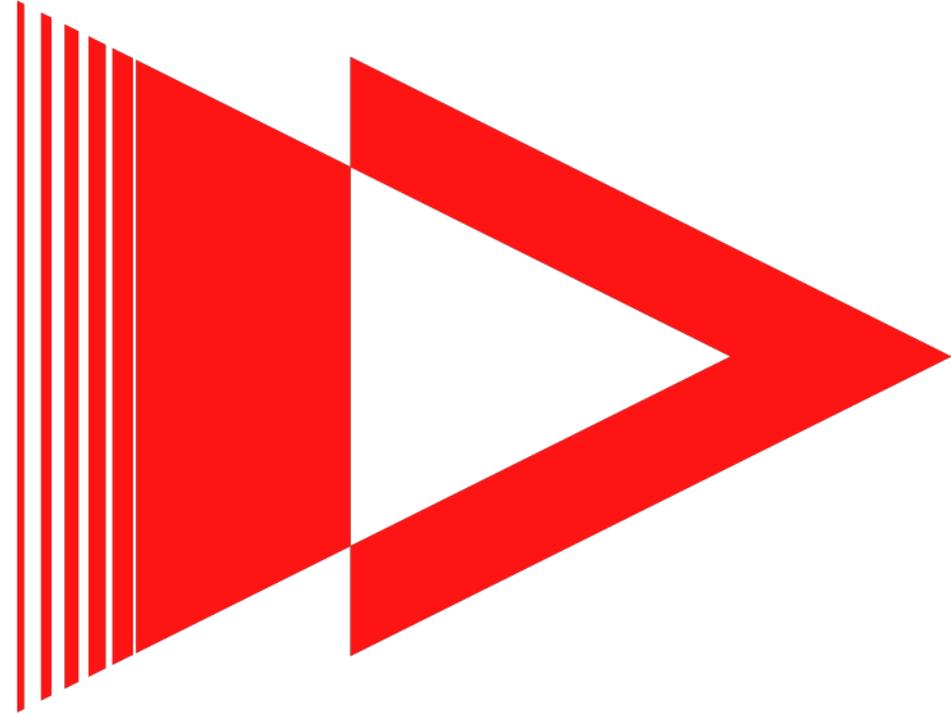

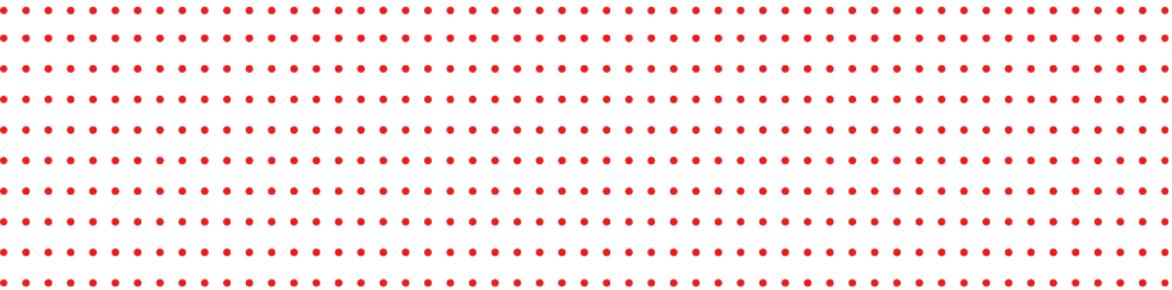

run virtual desktops. As a result, most small and medium businesses didn't have the resources to manage virtual desktops in-house. Azure WVD makes this accessible and affordable for all businesses. **Benefits**

- Simple to deploy and configure
- Cost effective
- Easy to scale
- Flexible

WVD Access and Login Experience

WVD Access Method

- Using a HTML-5 Supported Web Browser

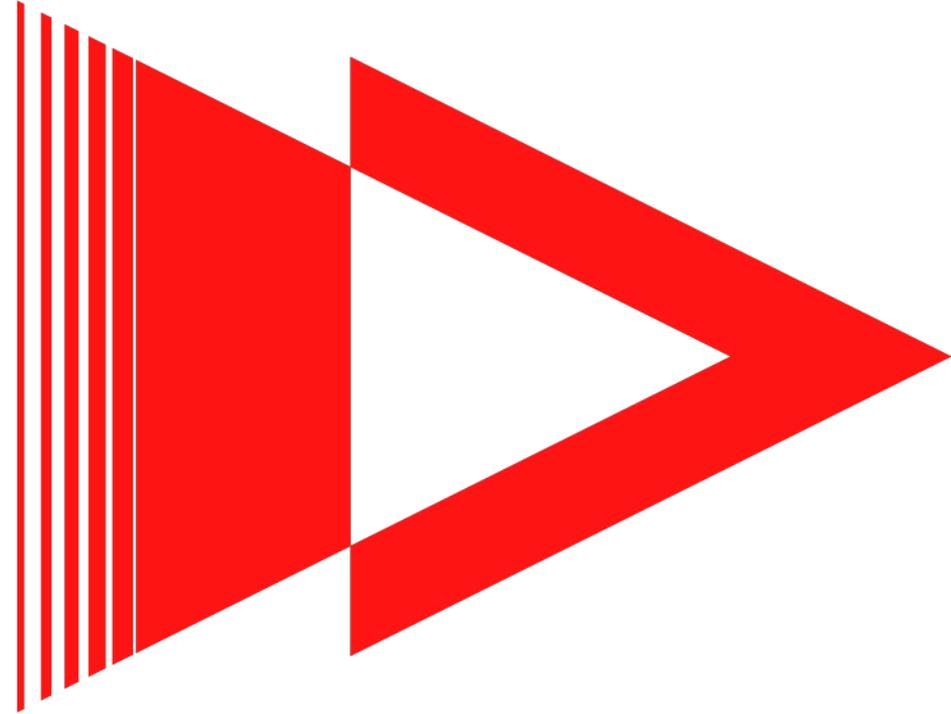

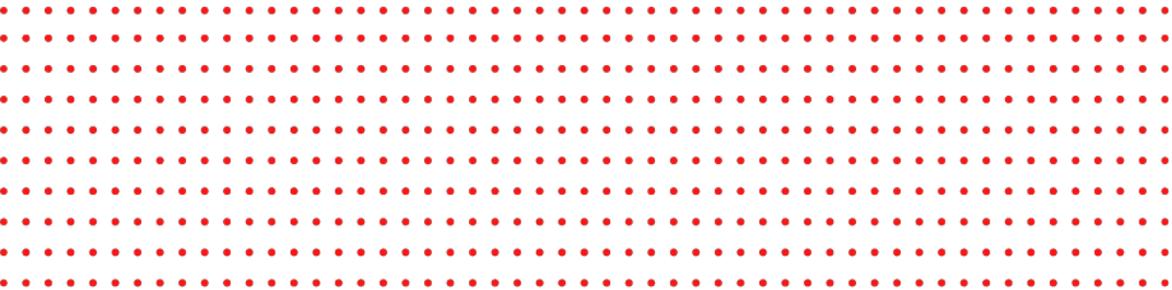

- Remote Desktop Clients app on Windows Machine , MACOS, Android, IOS devices

WVD Access via Web Browser

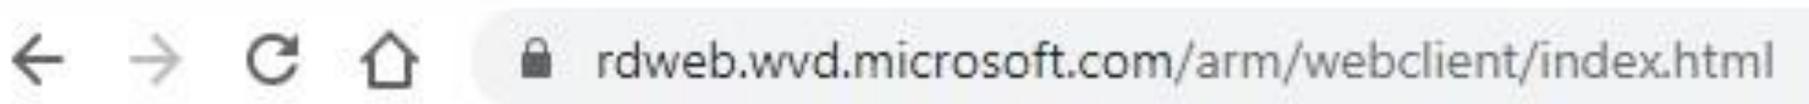

Supported Web Browser

| Browser | Supported OS | Notes |
|-----------------|----------------------------------|---------------------|
| Microsoft Edge | Windows | |
| Apple Safari | macOS | |
| Mozilla Firefox | Windows, macOS, Linux | Version 55 or later |
| Google Chrome | Windows, macOS, Linux, Chrome OS | Google Chrome |

Web Browser Access

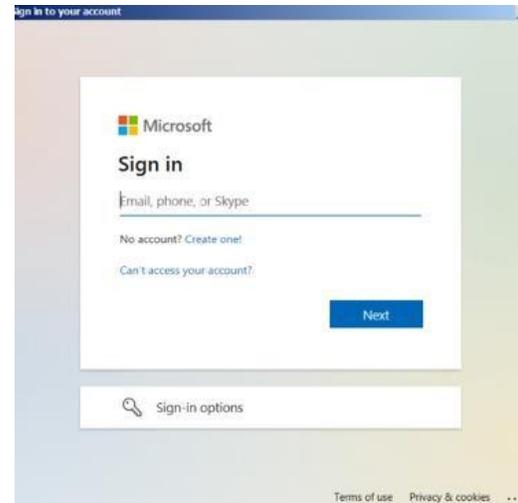

Step 1:

Open a web browser (IE/Firefox/ Google Chrome/ Edge / Safari) and enter <https://rdweb.wvd.microsoft.com/arm/webclient> in the address bar

Step 2:

Enter your "@tp.edu.sg" or "@student.tp.edu.sg" username and click on the 'Next' Button

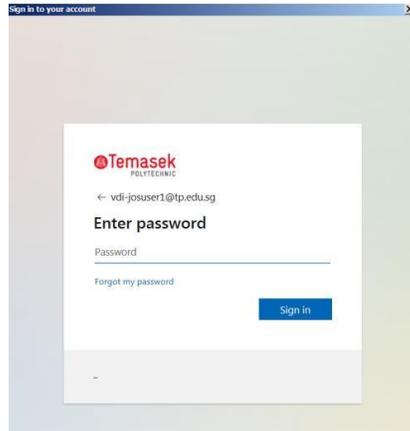

Web Browser Access

Step 3:

Enter the password and click 'Sign in', Click 'Next' on More information required

Note: Account name in screen capture is for reference. It should be showing your own email ID.

hss1@student.tp.edu.sg

More information required

Your organisation needs more information to keep your account secure

[Use a different account](#)

[Next](#)

Step 4: Click 'Cancel' to skip the authentication setup

HSS1@student.tp.edu.sg | ?

don't lose access to your account!

To make sure that you can reset your password, we need to collect some info so that we can verify who you are. We won't use this to spam you – we'll just use it to make your account more secure. **You'll need to set up at least 2 of the options below.**

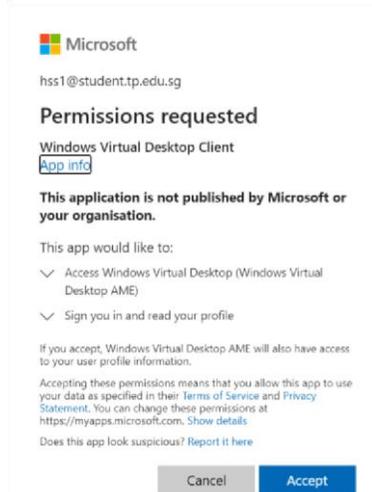

- 1 Authentication Phone is not configured. Set it up now
- 1 Authentication Email Address is not configured. Set it up now

[Finish](#) [Cancel](#)

Web Browser Access

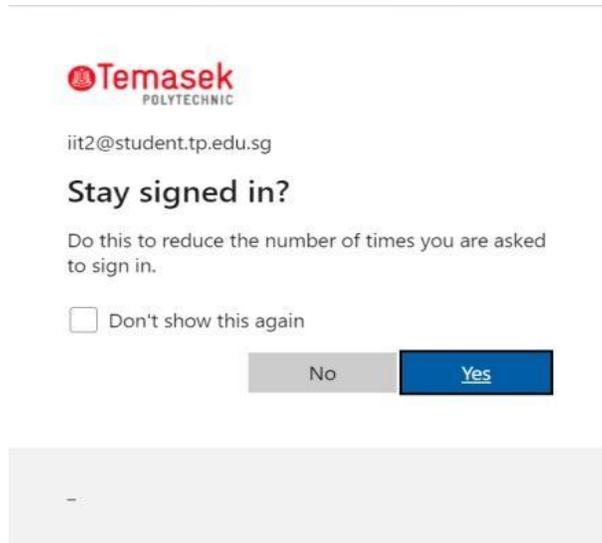

Step 5 :

Click 'Accept'. Note: This will only happen during the initial logon. After that you will see the screen in step 6 for the logon

Step 6 :

In the stay signed in screen, Click 'No'

The screenshot shows a dialog box from Temasek Polytechnic. At the top left is the logo with the text "Temasek POLYTECHNIC". Below the logo is the email address "iit2@student.tp.edu.sg". The main heading is "Stay signed in?". Underneath, there is a line of text: "Do this to reduce the number of times you are asked to sign in." Below this text is a checkbox followed by the text "Don't show this again". At the bottom of the dialog, there are two buttons: a grey button labeled "No" and a blue button labeled "Yes".

Web Browser Access

Step 7 :

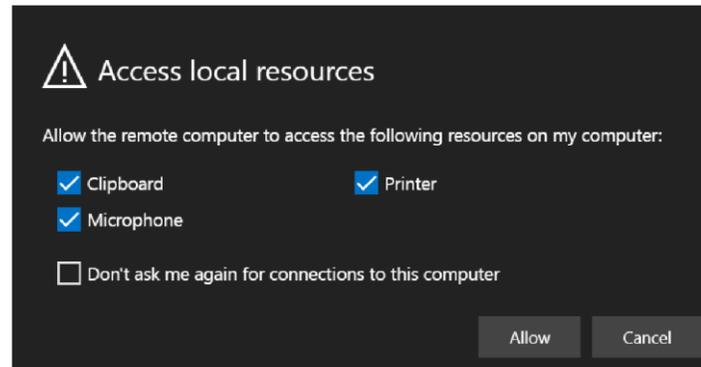

You will now be logged into the WVD portal. Expand the workspace (the workspace named by the school code) and click to launch session host. (The session host named by subject code from each of the schools).

Web Browser Access

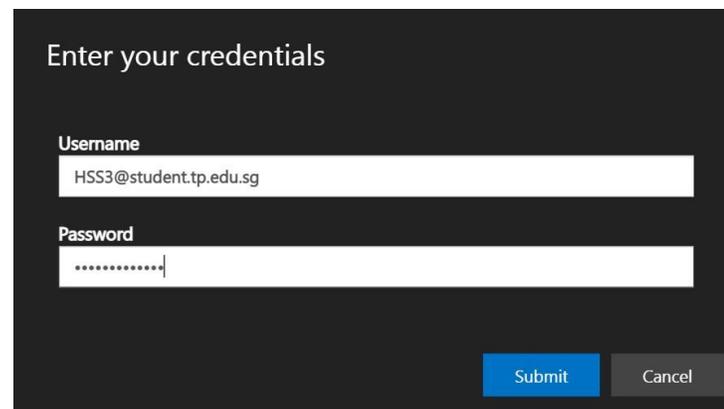

Step 8:

If you wish, tick the boxes below to allow connection to your local Printer , clipboard and Microphone (Please note this Printer is not the Printer in your practice, this will only give access to your local printer connected to your personnel laptop / PC and click 'Allow'.

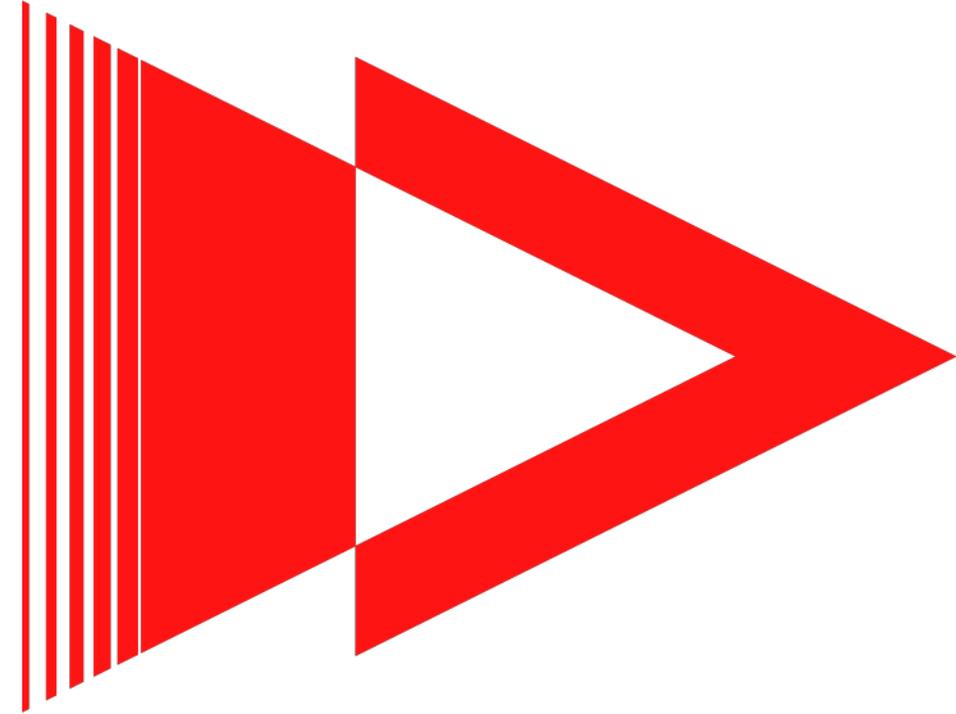

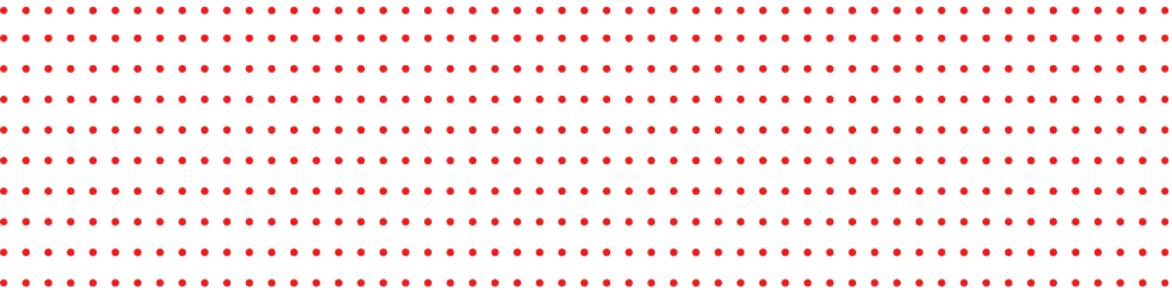

Step 9:

Please enter your “@tp.edu.sg” or “@student.tp.edu.sg” login username and password , Click 'Submit'

WVD Access via Windows App Client On Windows

Windows App Client Access on Windows Machine

Step 1:

To download the RD client application, Open the browser and type in the URL [Windows App - Free download and install on Windows | Microsoft Store](#)

Step 2:

Navigate to the session 'Download'. You will see the application starting to download after you select the download, and the installer name will be like "Windows App Installer.exe"

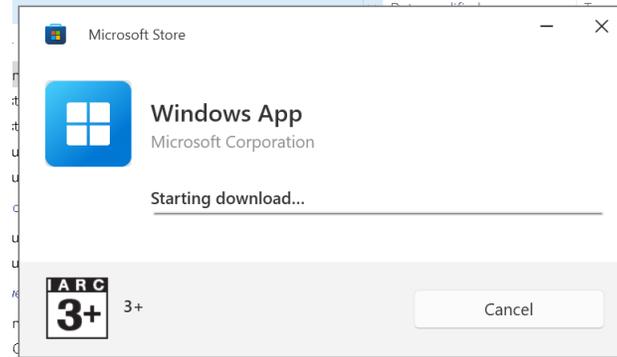

Microsoft | Store | [Home](#) | Apps | Games | Entertainment | About

The screenshot shows the Microsoft Store page for the Windows App. On the left is a blue square icon with a white window symbol. To the right, the title "Windows App" is displayed in large black font, followed by "Microsoft Corporation" in smaller blue text. Below that, it shows a 2.6 star rating from 150 ratings and the category "Productivity". An ESRB rating of "E" for "EVERYONE" is shown in a black box. A note states "Requires work or school account". A prominent blue "Download" button is visible, accompanied by a small icon of a download folder. Below the button, a message reads: "We've downloaded an executable to help you install Windows App. Open this file in your downloads to begin installation."

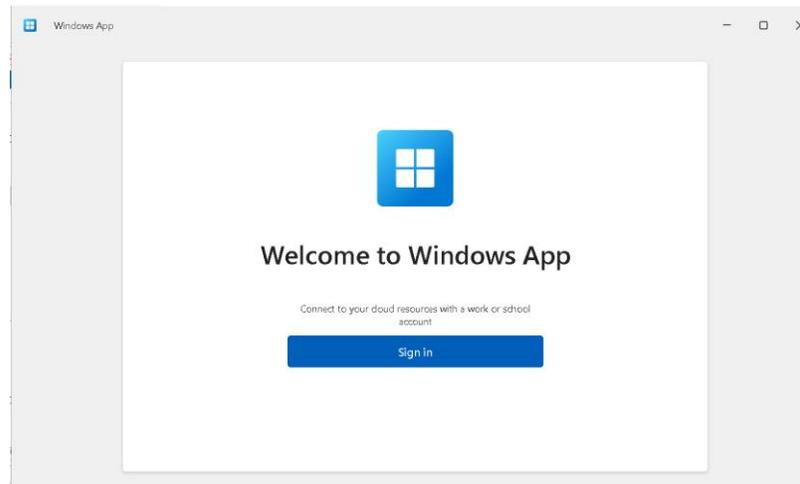

Step 3:

Double click the package and you will see it is starting to download followed by auto installing.

Step 4:

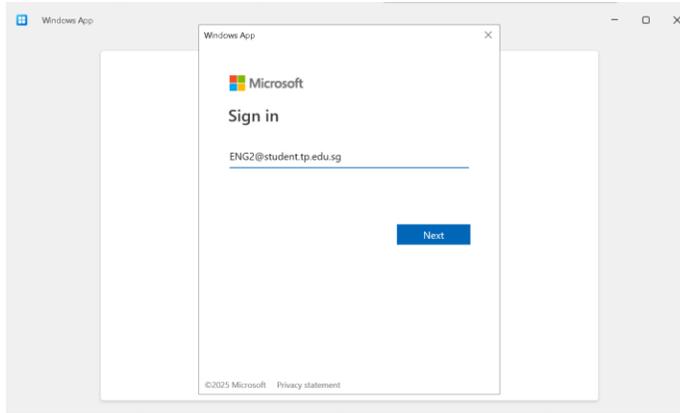

Once the software is installed you will need to "Sign in".

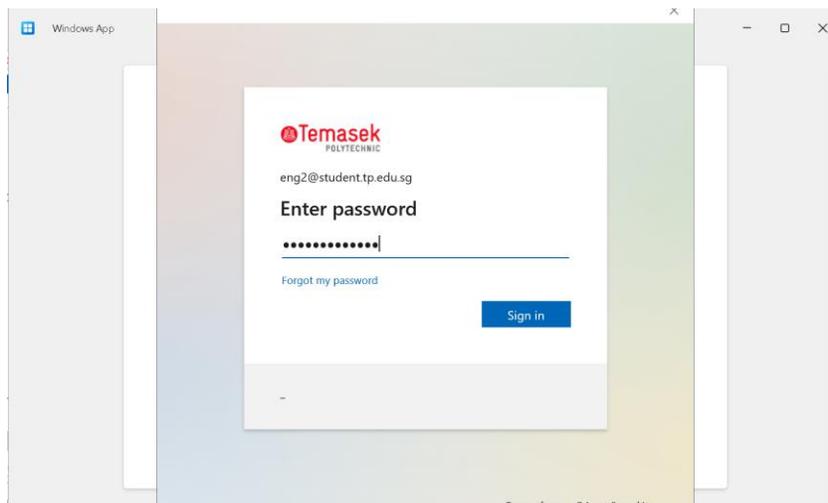

Windows App Client Access on Windows Machine

Step 5:

Once you press “Sign in”, you will need to use TP email account to login.

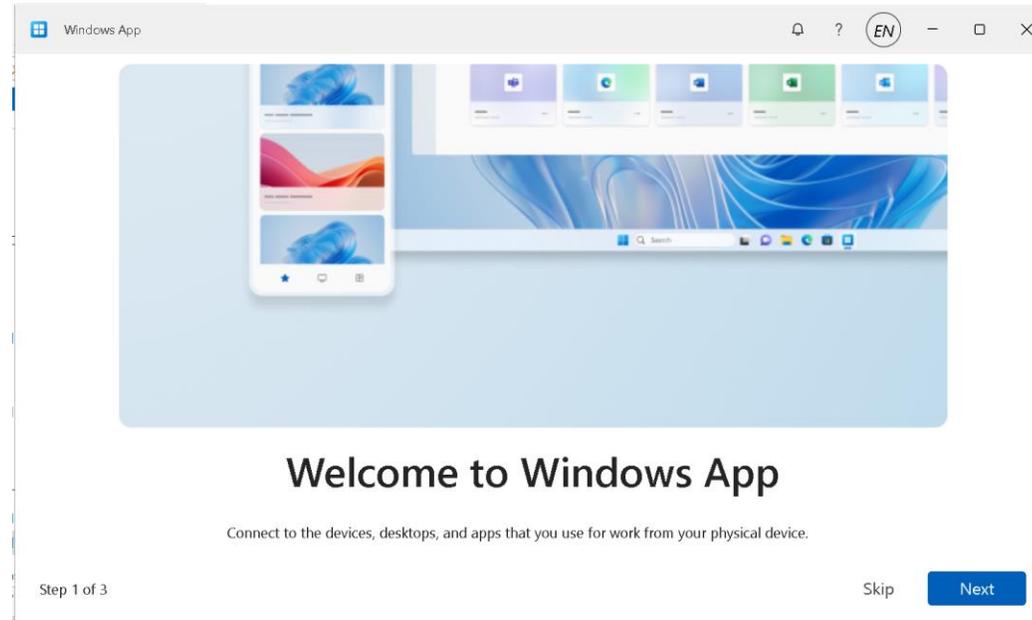

Step 6: Once you key in your TP email account press “Next” follow by your password.

Windows App Client Access on Windows Machine

Step 7:

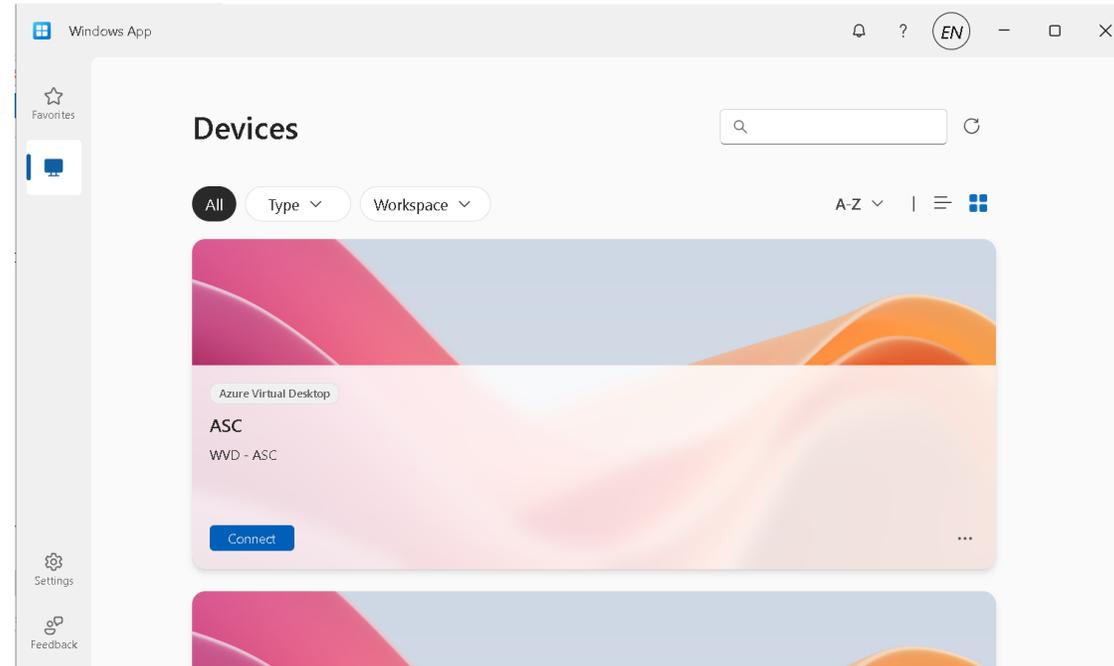

First time login you may want to go with the steps, or you can Skip.

Windows App Client Access on Windows Machine

Step 8:

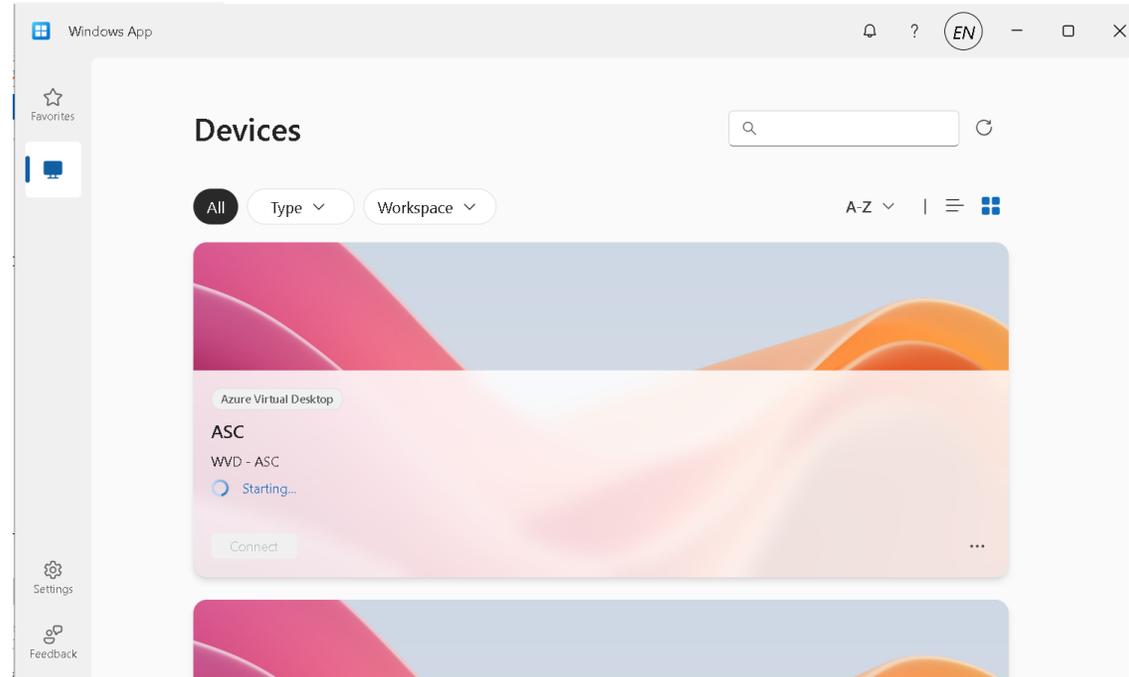

Once you done with the steps or skip, you should see all the icons for AVD.

Windows App Client Access on Windows Machine

Step 9:

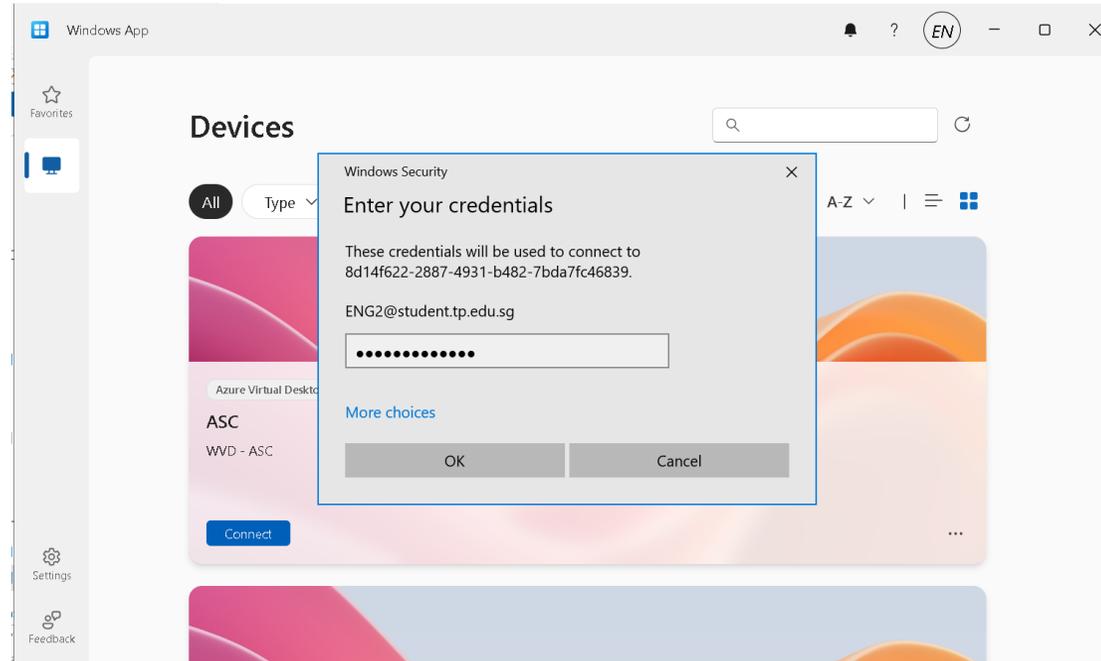

Press “Connect” to access the device icon below and it will start to connect.

Windows App Client Access on Windows Machine

Step 10:

Once is connected, it will prompt you for password.

Windows App Client Access on Windows Machine

Step 11:

You will now be logged into your Windows Virtual Desktop.

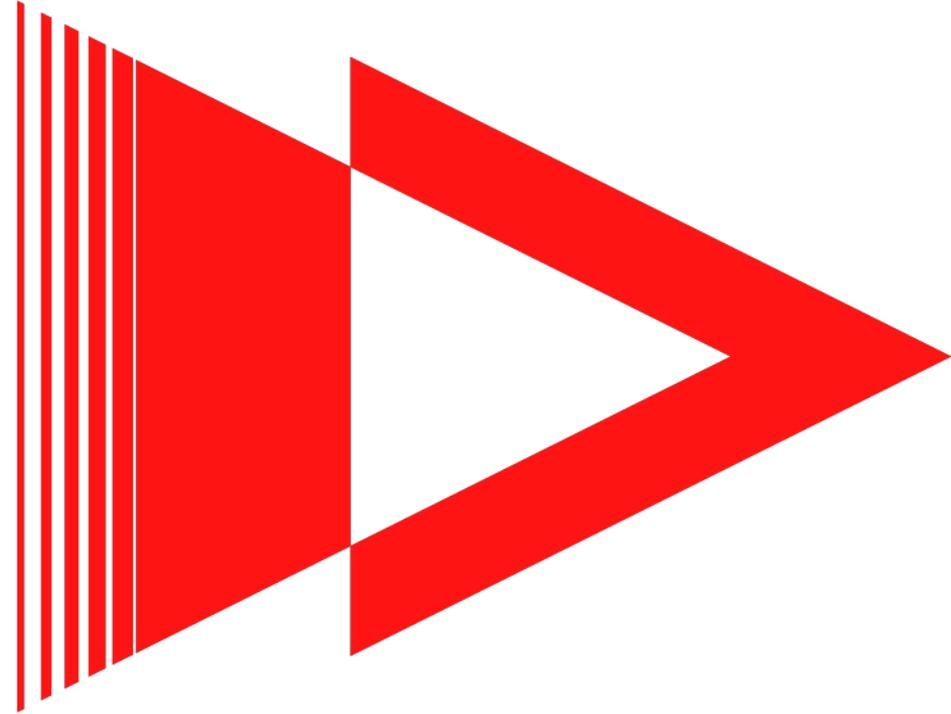

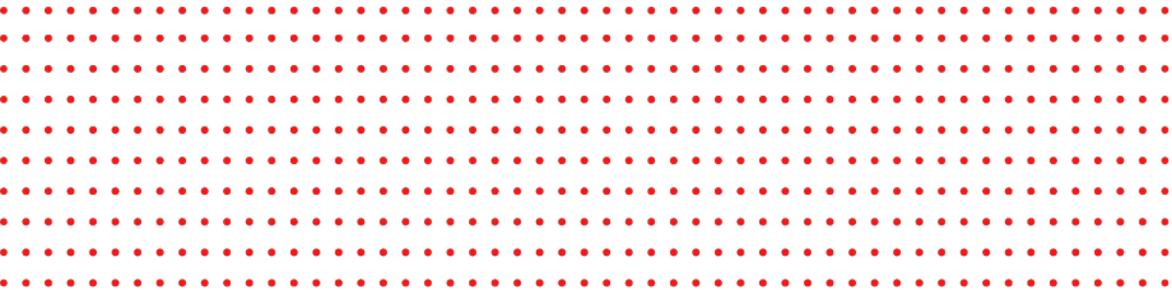

In the event you encounter any VDI related issue during the VDI session, please reach out to the VDI Support Team at the following:

| Name | Email Address | Contact Number |
|---|------------------------------|----------------|
| Calvin Wong (Primary Engineer) | WVD-Support@ap.logicalis.com | 86501688 |

Step 12:

You will now be logged into your Windows Virtual Desktop.

WVD session host Log Off Experience

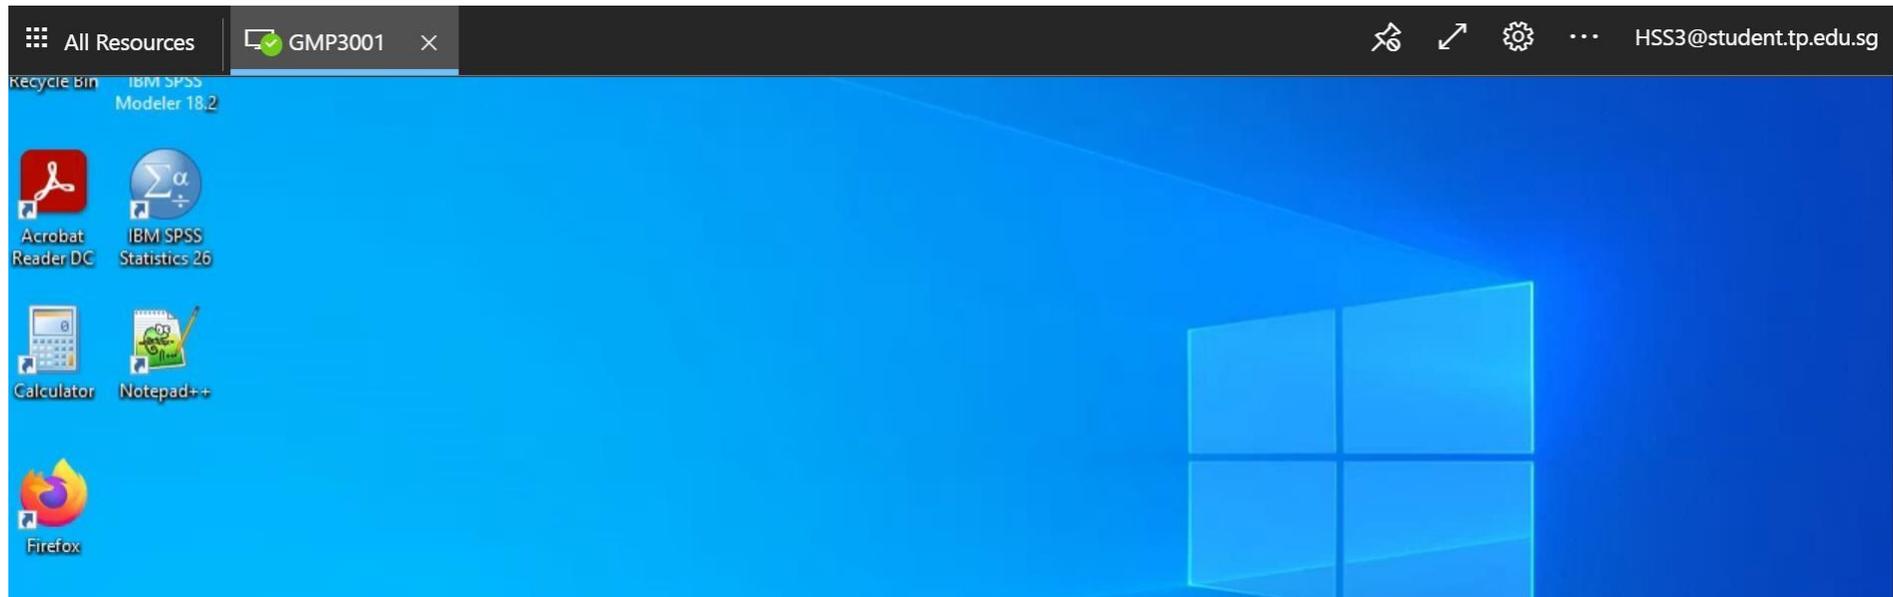

Sign Off from Virtual Remote Desktop

You can simply log off from the desktop you're connected to where you can click on the  and click 'Sign Off'

Sign Off from Virtual Remote Desktop (Browser)

You can also simply log off from the desktop you're connected to by clicking the 'X' button.

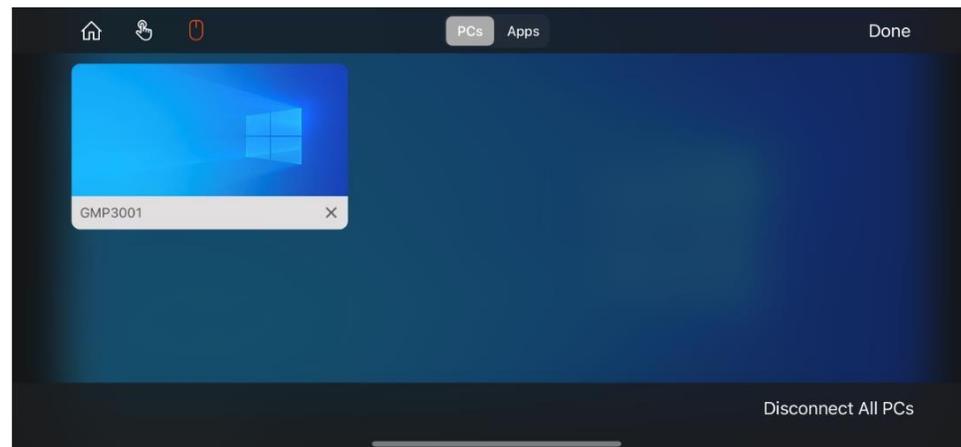

Disconnect from Virtual Remote Desktop (IOS/IPADOS)

Step 1: Click on the middle button at the top of the screen

Step 2: Click the "X" for the desktop you'd like to close or click 'Disconnect All PCs' from the button right

Disconnect from Virtual Remote Desktop (Android)

Step 1: Click on the middle button at the top of the screen

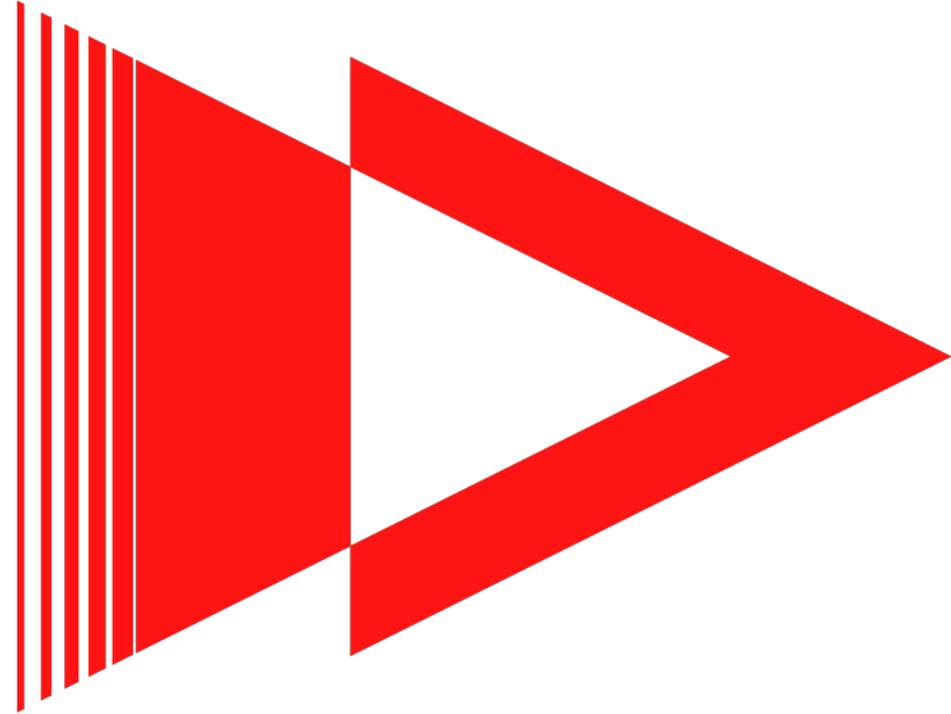

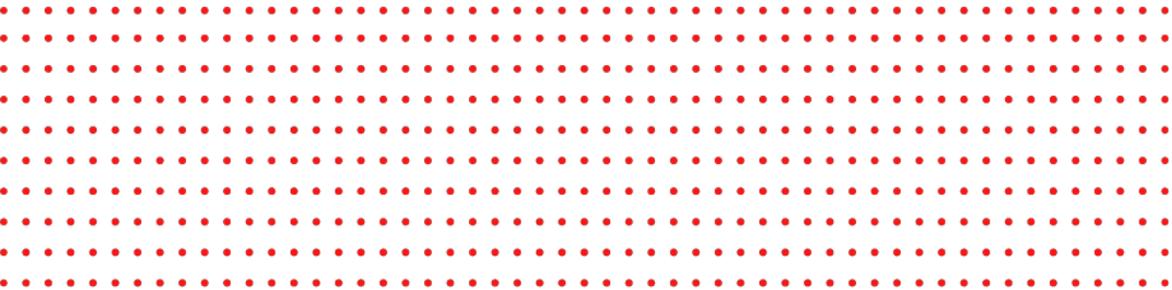

Step 2: Click the "X" for the desktop you'd like to close.

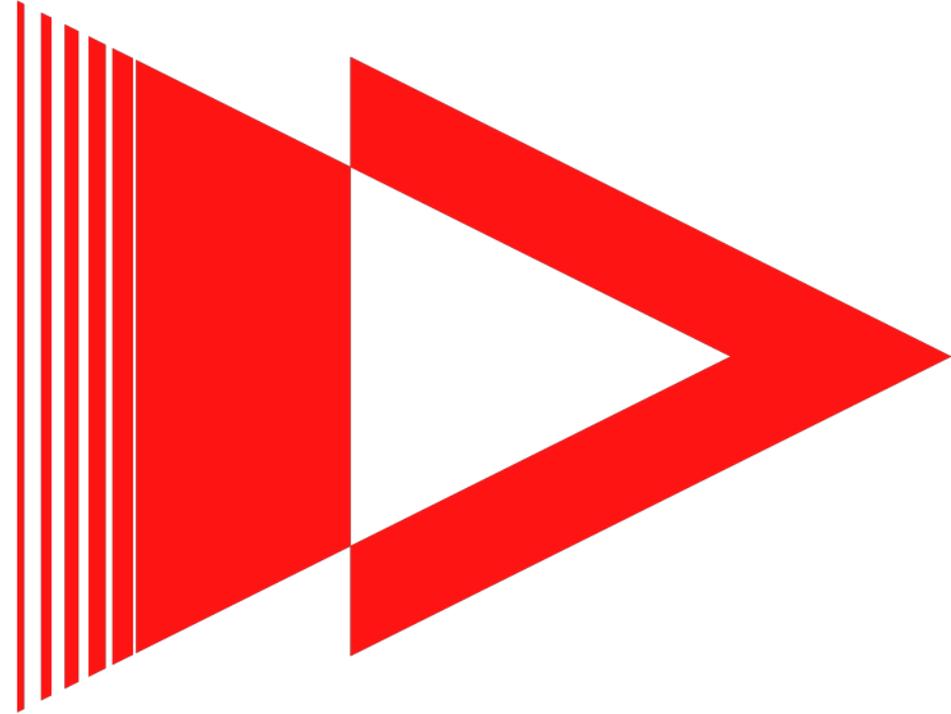

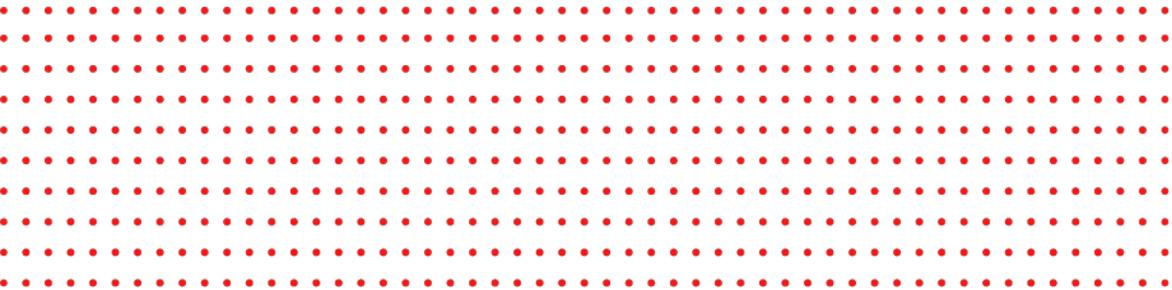

Demo

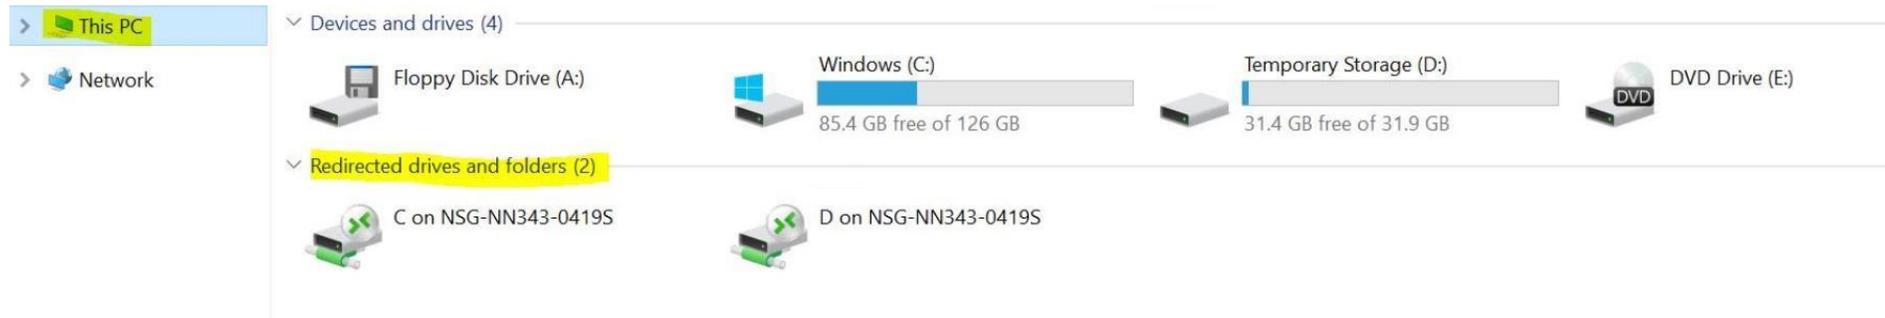

Local Drive Redirection

Local Drive Redirection

- WVD is the non-persistent environment
- Do not store any saved files and hardcoded application configuration within the WVD session host
- With the client drive redirection feature, you can share folders and drives on the local client system with remote desktops
- Drives redirection can include local mapped drives and USB storage devices.

Screen shot of Drive redirection:

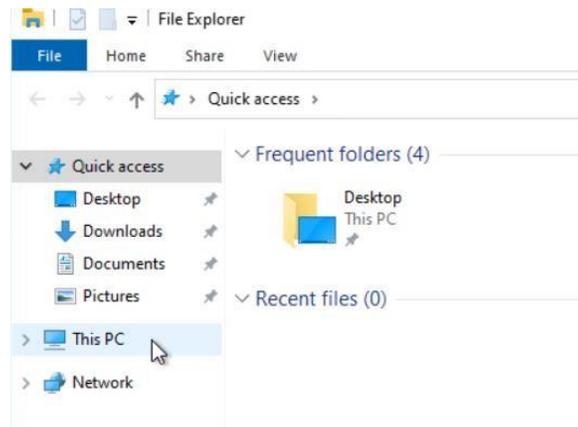

Save File to Local Redirected Drive

Step 1:

From the session host that you are connected now, Click on the file explorer icon as shown in the taskbar

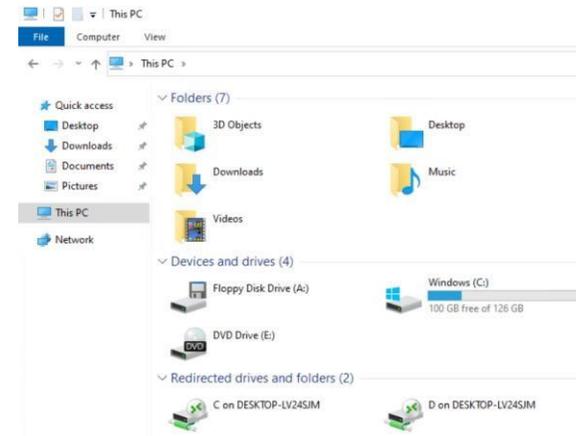

Step 2: Click on “This PC”

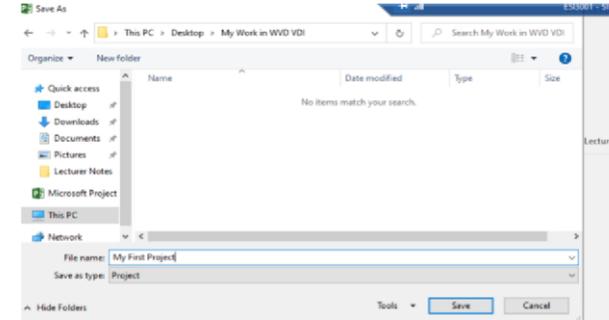

Step 3:

You will now see the redirected drive from your notebook. this is usually named as “C on <Your local device name>”.

Step 6:

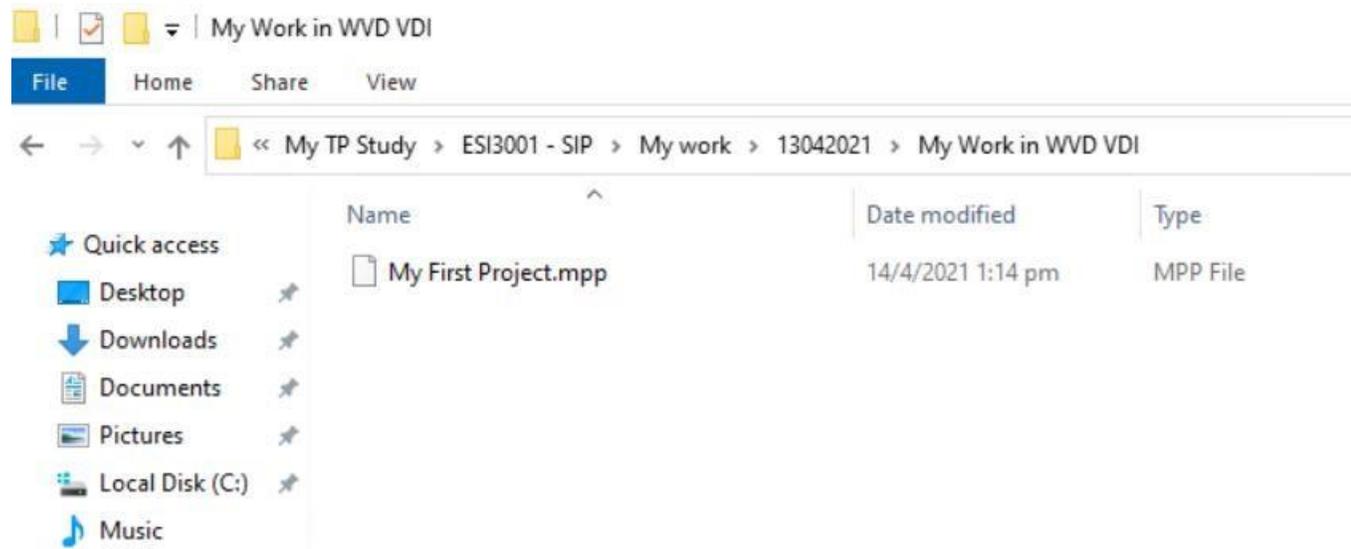

Select the redirected drive and in this case to save into “C on <Your local device name>” and click “Save”

Save File to Local Redirected Drive

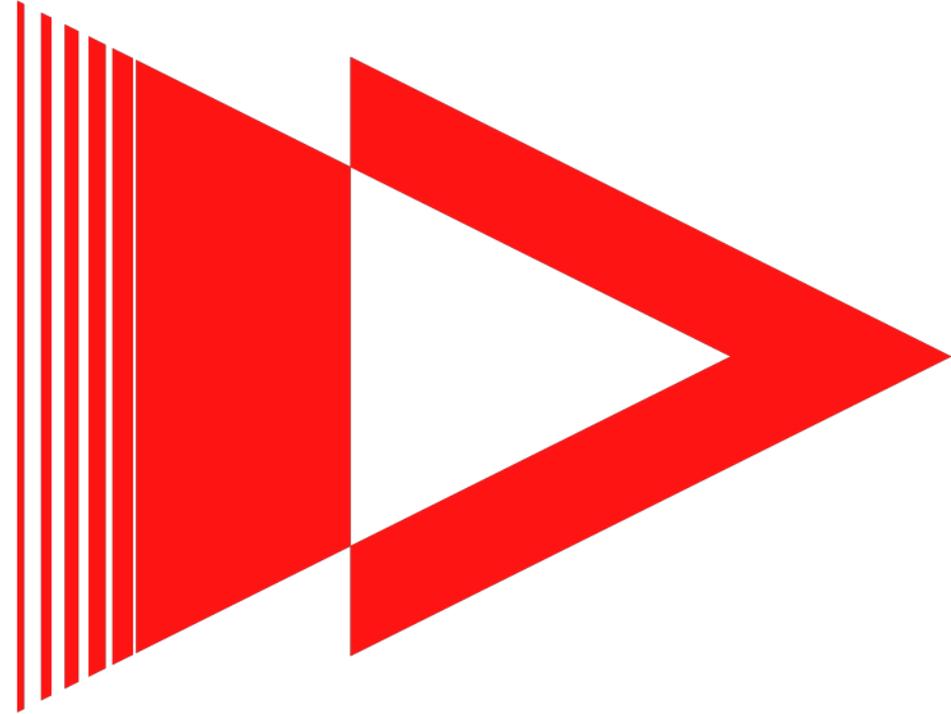

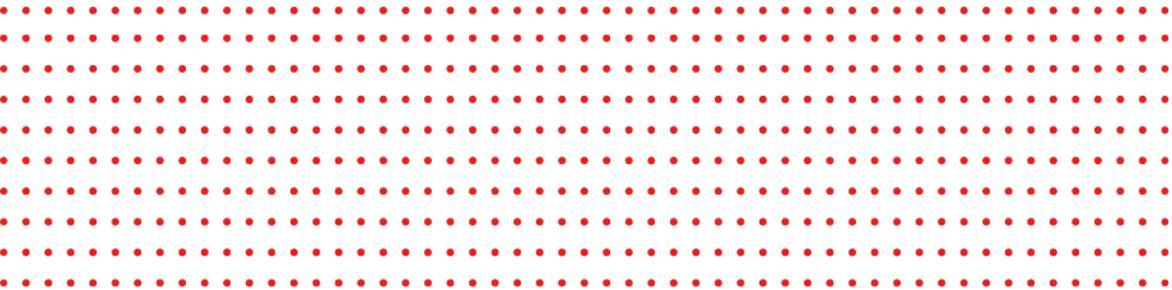

Step 7:

To verify that the project file is successful save into your C Local drive, now go back to your machines and open your C Drive and you will be able to see the file successful save into your C Drive from the WVD.

Frequently Asked Questions

Frequently Asked Questions

| Question | Answer |
|--|---|
| <p>I already have @tp.edu.sg or @student.tp.edu.sg credentials. However, I cannot log in to my WVD. What should I do?</p> | <p>Please try to verify if you are able to sign in to office.com</p> <p>If you are not able to sign in to office.com, please try changing your password using the link https://aka.ms/sspr</p> |
| <p>I am having trouble with my browser, and it is not letting me change my password or sign into the WVD portal. What should I do?</p> | <p>Please delete your internet browser's history, cache and data. Alternatively, you are still able to access the web pages you are having difficulties by using the private browsing mode from within your web browser to access the URLs.</p> |
| <p>I'm still having issues logging in, what should I do?</p> | <p>Please contact the helpdesk number or alternatively send an email to support for further assistance.</p> |

| Question | Answer |
|--|---|
| <p>After resetting my password / activating my new account, I tried to log on to my WVD on my regular browser, but I cannot log in. Why am I not able to log in?</p> | <p>Please clear your cookies/cache/temp files on your browser. Alternatively, please use private / Incognito browser.</p> |
| <p>I am having trouble launching the session host and it throws me an error. What can I do?</p> | <p>Please contact the helpdesk number or alternatively send an email to support for further assistance.</p> |
| <p>All my save data is lost after I re-login to my WVD. What should I do?</p> | <p>The new WVD platform is not meant to work as a personal virtual desktop. Hence, please be reminded upload the saved data to either OneDrive which the URL is https://studenttpedu-my.sharepoint.com/ or alternatively, save into the user local drive in the WVD before logging off.</p> |

| Question | Answer |
|---|--|
| <p>I want to save my data in my local drive in my WVD but I cannot locate it. What should I do?</p> | <p>Please make sure install the Windows App (64-bits). For MAC, you are required to enable an additional step, which you can refer to the user guide under “WVD Access via Windows App Client on MAC”.</p> |
| <p>What is the temporary storage in my WVD?</p> | <p>Temporary storage in the WVD is mainly reserved for the system OS and OS related files, not for personal usage. Please do not store any data and files in the temporary storage.</p> |
